SUMMARY

Software Engineer specializing in **React Native**, **React.js**, and **Node.js** with **2.8+ years** of experience building scalable web and mobile applications backed by **PostgreSQL** and **MongoDB**. Proven track record in **Fintech**, **Government**, and enterprise products, including RESTful API design, third-party API integration, AI-powered features, and production deployment on AWS, Docker, Nginx, and CI/CD. Solved **500+ Data Structures and Algorithms problems**.

TECHNICAL SKILLS

Frontend & Mobile: React Native, React.js, Next.js, Redux, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, API Integration, Role-Based Access Control

Databases: PostgreSQL, MongoDB, MySQL, SQL, Firebase

Cloud & DevOps: AWS (EC2, S3, IAM, Route 53), Docker, Nginx, SSL, CI/CD, Git, GitHub, Postman

Languages & CS: JavaScript, C++, Java, Data Structures and Algorithms

EXPERIENCE

FivoPay Feb 2026 – Present
Software Engineer Pune, India

- Develop and maintain fintech solutions for Cooperative Societies, Credit Societies, NBFCs, and financial institutions using React.js, Node.js, Express.js, MongoDB, and PostgreSQL.
- Built and integrated RESTful APIs for KYC, Aadhaar/PAN verification, payments, banking, and financial services.
- Integrated third-party APIs for KYC, eSign, eStamp, and payment processing, ensuring secure and reliable API communication.
- Designed and deployed scalable backend services on AWS EC2 using Docker, Nginx, SSL, and CI/CD pipelines.

Weiteredge Technology Pvt. Ltd Dec 2023 – Jan 2026
Full Stack Developer Hyderabad, India

- Developed and maintained web modules for large-scale e-governance projects across 3 state governments (Telangana, Andhra Pradesh, Odisha), ensuring data security, performance, and smooth public access.
- Designed and optimized RESTful APIs with efficient queries and reusable service layers, reducing development time by 20% and improving API response times by 30%.
- Optimized React Native Android/iOS apps using Redux for state management and performance tuning, improving UI/UX and boosting user retention by 15%.

PROJECTS

Fivopay – Unified Fintech & Banking Platform | React.js, Node.js, Express.js, MongoDB, AWS

- Developed a unified fintech platform combining digital wallet, payments, equity, FD/RD, lending, and branch banking operations for Cooperative Societies.
- Built an AI Advisor that guides customers/members on financial decisions, and an AI Advisor dashboard for the Chairman and Branch Managers to review member profiles and take approve/reject actions on loans and requests.
- Engineered the KYC onboarding workflow used to onboard and verify 20,000+ cooperative society members.
- Built RESTful APIs and end-to-end financial workflows: wallet transactions, loan processing, digital approvals, disbursal, EMI schedules, and deposit management.
- Designed role-based workflows for customers, field agents, cashiers, branch managers, and administrators, enabling secure transactions, loan verification, and branch-level reconciliation.
- Integrated third-party KYC, payment, eSign/eStamp APIs and deployed production services using AWS, Docker, Nginx, SSL, and CI/CD.

Greensip – Smart Waste Management | React Native, React.js, Node.js, PostgreSQL, Firebase

- Developed a smart waste management system integrating IoT hardware with a React Native mobile app, deployed as a live product on Play Store.
- Implemented a barcode-based reward system where users redeem points as discount coupons at partner outlets.
- Built RESTful APIs using Node.js and PostgreSQL for user management, reward processing, coupon redemption, and real-time waste collection workflows.

Plattr – Food Ordering Application | React Native, Node.js, PostgreSQL, Firebase

- Built a bulk catering order platform for events, offices, and group gatherings, used by 500+ users.
- Implemented custom meal creation, quantity management, and real-time order tracking.

- Designed and developed scalable RESTful APIs using Node.js and PostgreSQL for order management, meal customization, pricing, and order lifecycle tracking.

EDUCATION

Bakhtiyarpur College of Engineering, Patna Aug 2019 – Sep 2023
B.Tech – CGPA: 8.67
